Session 4 – Transcript (Agentic RAG)

- Today: Agentic RAG – adaptive and intelligent.
- Agentic flow: Planner → tool calls (vector, SQL) → synthesis.
- Demo: Ask 'What are KYC retention and OTP rules?'
- Trace: Plan → vector retrieval → optional SQL → final synthesis.
- Enterprise: Agents can orchestrate APIs without pipeline rewrites.
- Engagement: Ask how Agentic RAG could integrate customer or payment APIs.
- Wrap-up: stepping stone to full AI copilots for compliance & operations.
